

Automatic Sealing & Cutting Machines

Description:

The machine is a fully automatic unmanned L sealer cutter, widely used for lot production pipelining with high efficiency. The machine is equipped with auto film feeding & perforating device and manually adjustable infeed conveyor table in order to meet different requirements from different products. Model BSF-5640L adopting relay control, price moderate. Model BSF-5545LC has a tight lock device especially designed for small products.

Features:

1. DUPONT Teflon coated aluminum alloy cutter that is thermo stable and anti-sticking ensures good sealing without cracking, coking or any smoke pollution.
2. Auto film-feeding; variable film length control by means of electric eye and counter; an inductive motor for auto film selvage winding.
3. Product length detected by a double photo-eye with horizontal and vertical reading according to the product dimensions, so the machine can achieve packaging work easily even for thin and small package.
4. Digital temperature controller with inbuilt PID function. Variable sealing temperature is extremely sensitive and accurate. The cutter itself has function of auto protection in order to avoid wrong cutting.
5. Simple products changeover without need of moulds or bag forming devices.
6. Products of different sizes can be packed together for sales promotion.
7. Safety hood made of organic glass and auto alarm that ensure operator's safety.
8. The machine can be integrated into the production line to achieve unmanned operation.

Application: The machine is ideal for lot shrink wrapping in various industries such as software, foodstuff, cosmetics, printing, pharmacy, flooring, ceramics, beverage, hardware, etc

Machine	BSF-5545LB	BSF-5545LC	BSF-5640L
Voltage	220V/50Hz	220V/50Hz	220V 50/60Hz
Air-pressure required(kg/cm ³)	6-8	6-8	6-8
Power (KW)	1.3	1.3	1.3
Capacity (PCS/min)	15-25	15-25	15-30
Max.packing size (LxWxH)(mm)	450x350x130	450x350x130	500x400x125
Max.sealing & cutting Size (LxH)(mm)	500x450	500x450	500x450
External Dimension (LxWxH)(mm)	1700x960x1400	1700x960x1400	1450x1360x730
Net Weight(kg)	225	245	350
