WHAT WILL ETH DO?

TRAINING

ETH will impart excellent training in Interview Skills, GIS, Cyber Security & others through skilled trainers and engaging methodology. It will make sure that the students improve their skills significantly by using practical knowledge and activity based learning. Any training involving software/ computers will either require updating those tools in the college computer lab or conducting it in the nearest ETH Center (ETH has a few hundred centers in Maharashtra incl. Nashik). The content for all the programs can be seen by registering on our website – www.hackingforum.co

TRAINERS

ETH Trainers come with a considerable amount of experience in the industry. They have been in the domain for about 5 – 10 years. Apart from that they are well versed with the training philosophy and methodology.

METHODOLOGY

Course Name	Total Hrs.	No. of Months	Contact Sessions		Virtual Classroom	Workshop
			Theory	Practical		
Interview Skills	36	2.5	6	6	18	6
Cyber Security	30	2.5	6	12	6	6
Data Analytics	30	2.5	6	12	6	6
GIS Lit	24	2	2	2	14	6

Note: All of these are 'Level 1' programs

ASSESSMENT

ETH will also conduct formative and summative assessments in order to track the progress and also to make sure that the student has achieved the expected level. The assessments are conducted both – **online** and **offline** throughout the duration of the course.

CERTIFICATION

The student will get the certification based on the performance in the final assessment. The certification will be provided by ETH SDA.

PLACEMENTS

There are certain skills which are coveted by the industry. We bring students to those level by the time they finish level 3 of any discipline they have chosen among our offering. ETH does not claim to offer placements to the students. However, SDA as a genuine movement will make an attempt to reach out to the employers in the respective segments and try to put employers and prospective candidates in front of each other.
